

**Ghost Of A Friend**  
**Supergrass**

hey its my first tab on here but ive transcribed more songs for myself  
im 110% sure that this is right, very easy song but its really cool  
here we go

**Cadd9**

The ghost of a friend came down to me

**Am**

Singing don t go back to misery

**Cadd9**

She spread out her wings and said listen to me

**Am**

This ain t no place for you to be

**G**

Oh my darling you can set me free

**Cadd9**

So I packed up my sorrows

And I followed her down

**Am**

To the Westway Road heading out of town

**Cadd9**

The grass is greener off the beaten track

**Am**

So come with me and we won t go back

**G**

Oh my darling I could only try

**Cadd9**

**Am**

They re the clowns that ve taken the town

**Cadd9**

**Am**

Yeah the fools here are running me down

**Cadd9**

**Am**

**G**

Well I don t need them around, they got nothing on you

**Am**

**G**

**Am**

They got nothing on you, no

**Am**

**G**

And the lady sings

**Cadd9**

Now the ghost of a friend is leaving me

**Am**

For another dark place of misery

**Cadd9**

But the fires burning and the winds they change

**Am**

I know I've seen my friend again  
**G**  
Oh my darling you have made me see

**Cadd9** **Am**  
There is always a circus in town  
**Cadd9** **Am**  
With the vultures, and the peacocks and hounds  
**Cadd9** **Am** **G**  
Well I don't need that around, they got nothing on you  
**Am** **G** **Am**  
They got nothing on you  
**G** **Am**  
And the lady sings

**Cadd9** **Am**  
You see there's always a circus in town  
**Cadd9** **Am**  
All the vultures, peacocks and hounds  
**Cadd9** **Am** **G**  
Well I don't need them around, they got nothing on you  
**Am** **G**  
They got nothing on you, no  
**G** **Am**  
And the lady sings

Well, there she goes
