A                    F#
I got a girl and her name is Mary,
C#m
I like to shock her on a basis daily,
A                        F#
I like to push you over into my stream,
C#m
I like to point out that her teeth are green,
A                            F#
I tell you stories that you won t understand
C#m
I ll have you eating from the palm of my hand
A                            F#
I m gonna push you further into my dream
C#m
The back of every head hold something obscene
```

I get the feeling you re not ordinary
I got a head like falling masonary
I ll cut your strings, ah yes, a puppet machine
I watch you drop and fall apart at the seams

You wanna try and get your teeth knocked out
I m gonna push you further into my dream
The back of every head holds something obscene
