Gm Dm C Dm (repeat to fade)

- Most of the chords (especially the Eb and Bb) are power chords (except the A7 and D7), some of the less common chords may be a little out due to the song being played on piano and tabbed for guitar, but I did the best I could given that I don t yet have a piano. These chords should work on piano, although some adjustment might be necessary.

Great song, one of my favourites by Supertramp, enjoy.
