C#m **F#m**
All your words of wanting

D
Are somewhere in love's dream

C#m **F#m**
A powerful tool

D **A** **D** **A** **E**
A pleasant smile, an excuse for love

A **E** **A** **E**
Looked in the mirror today

A **E** **A** **E**
Then I got scared away

A **E** **A** **E**
Oh I need love

A **E** **A** **E**
No affection for my reflection

A **E** **A** **E**
Oh I need love

A **E** **A** **E** **F#m**
Cause I can't guilt it, never forgive myself

[Chorus]
You reach me unequipped
For the tenderness you bring
It tastes like sour grapes
And it feels like a terrible waste

D **E**
I'll let you go

A **F#m**
Before you know

D **E** **A** **F#m**
Before you know I was happy on my own

D **E**
So when in doubt

A **F#m**
Don't burn 'em out

D **E**
There's some things you can live without
