**Survivor**

Intro: **C F C** (2X)

**C Dm**  
From a distance I can see,  
**C G C**  
The picture looks so clear to me.

**C**  
It s a vantage point,  
**F C**  
So few can hope to find.

**C**  
And patience held the key,  
**C Bm**  
Our love, our only guarantee.

**Am G Em**  
Our destiny to make it,  
**Bb F**  
Through the night.

**Am G**  
Through the tears and through the pain,  
**Am**  
This house was built to stand the strain.  
**Bb F G**  
Through harder times, I surely can t recall...

**C**  
And crazy as it seems,  
**C**  
Through all we had were crazy dreams,  
**Am**  
Those hungry years,  
**Em Bb F**  
I ll miss the most of all.

**G# Fm**  
Now at last, we fall together,  
**Cm**  
We ve been through it all together.  
**C# Bbm Fm Eb**

**G#**  
When the money was short,  
**Fm**  
And dreams were shattered,  
**Cm**

Faith in love was all,

That pulled us through,  
                  **Fm**      **G**      **C**  
I never stopped loving you.

**C**  
I ve stumbled on the way,  
                  **C**  
So many nights love went astray.  
                  **C**  
At different times,  
                  **F**                  **C**  
We each played separate fools.

**C**                  **F**  
But love became our pride,  
                  **C**  
When once we d seen the other side,  
**Am**                  **Em**                  **Bb**  **F**  
Every highway led me back to you.

**Am**                  **G**                  **Am**  
Through the wind and through the rain,  
                  **Am**  
This house was built to stand the strain.  
                  **Bb**                  **F**                  **G**  
Though harder times, I surely can t recall...
