G                                         C
   First, you take my heart in the palm of your hand,
                        G
   And you squeeze it tight,
G                                 C                 G
   Then, you take my mind, and you play with it all night,
G                             C                 G
   You take my pride, and you throw it up against the wall,
G                                 C                       G
   You take me in your arms, baby, and bounce me like a rubber ball
```

[Pre-Chorus]
```
G                                             Am
