Let s just let goodbye hurt like it should

One side of love doesn't get you anywhere
There's nothing worse than loving someone who's just not there
I know you searched for something here, can't say you didn't try
But feelings such as these don't just fall out of the sky

I've been in your shoes and I know how it feels
You say you love me, but that don't make it real
I'm better off knowing that you'll be gone for good
Let's just let goodbye hurt like it should

[Instrumental: **D(9)**]

I've been in your shoes and I know how it feels
You say you love me, but that don't make it real
I'm better off knowing now that you'll be gone for good
Let's just let goodbye hurt like it should
