

**Telepathy**

**Swans**

hide this tab

Always after strumming Bm a set number of times, play

```
e |-----2-----|
B |-----0-----|
G |-----|
D |-----|
A |-----|
E |-----|
```

Bm  
Ahh-ahh (repeated)

Bm  
And we steal our experience from an object that suffers

Bm  
But the brightest pain leaves a shadow on no one

Bm  
I saw you through the window masturbating to the violence

Bm  
And the blood and the bodies floated through the blue sun.

Bm  
And the green earth turns to flesh in your hand

Bm  
And the ether was born in the lungs of an ancient man

Bm  
We hallucinated at night.

Bm  
Our mind s in the light

Bm  
But I can t feel the body of the image which is now penetrating my sight

Bm  
But you re beautiful.

Bm  
And you re real

Bm  
Are you beautiful?

Bm  
Are you real?

Bm  
Ahh-ahh (repeated)

Bm  
And my body begins where your memory ends

Bm  
You were melted from stone.

Bm  
I was touched by your hands

Bm  
I can feel it when pleasure moves up your spine

Bm  
I can tell we re alive because your blood just blended with mine

Bm  
And the angels of heaven never sacrificed a sensation as pure as the cut of this  
knife

Bm  
And the wisdom contained in the telepathy of fear

Bm  
Solidified our suffering into the droning sound I still hear

Bm  
But you re beautiful.

Bm  
And you re real

Bm  
Are you beautiful?

Bm  
Are you real?

*Solo:*

Em  
+ these two notes after every few repeats
