

**Level Up**  
**Sway**

**C#m F#m E B**

OR

**Am Dm C G** (CAPO 4)

CONTINUE THROUGHOUT WHOLE SONG.

We level up, up, up, up, we level up  
Yeah, we level up  
We gonna climb up the levels, go harder  
Like splash every time we go past  
I ll never loose the game, I m gonna last  
So let s start, we level up

All over the radio and back up in the...again  
We got the crowd on the wave like it s a stadium  
Call me the weather man it s about to be a break weekend  
I m on the cloud, let s make it rain again  
Yeah, we level up  
Life s but nothing, shirts and dressed looking saucy  
Living in our minuses, cause life begins at 40 level up  
Call me Bond, James Bond  
How I maintain, I tell them winter stays on  
My brain racing like I m trying to win the gold for Britain, yes!  
I m an one track man, let s go the distance  
We re only stopping when we pose for pictures  
And now we move so wavy, we get motion sickness

Yeah, we level up  
We gonna climb up the levels, go harder  
Like splash every time we go past  
I ll never loose the game, I m gonna last  
So let s start, we level up

Feeling like a just won the lotto  
Pop a bottle and I make them say A  
like I m your dentist  
Keys to the sweet, you can call me Alan Sugar  
Well we re firing tonight, and I might need an apprentice  
Reunion, old school and uni friends  
It s your excuse to act like hooligans  
Bend and break the rules again

Parties just getting started at 2 am  
Waking up at noon next to

Who are you again?

Looking in the mirror and I feel like I m famous  
I got that glimmer in my eye like I ain t afraid of danger  
Today could be the day that everything changes  
I m trying to move up to the hills where idols become neighbors  
One moment, your whole world rearranges  
You feeling like you graduating Oxford or Cambridge  
Forever roll the dice and have it looking like Vegas  
You win some you loose some, but only winners take risks

I start...I ve been waiting on for ages  
Phone starts popping and I m gossiping with strangers  
And I know...I m out getting wasted  
All of these flashing lights popping out in places  
Always forgetting names, especially with neighbors  
What s your name again  
My house, like talk  
Wake up in the tea, saying touch me I m famous  
Hey stranger, where you been? Long time no see  
Time to level up  
I m in the game, play to win  
Another round on me

Yeah, we level up  
We gonna climb up the levels, go harder  
Like splash every time we go past  
I ll never loose the game, I m gonna last  
So let s start, we level up
