Switchfoot

Intro:

E B E B x4

verse 1:

B **G#m**
I can feel it building up inside
B **E**
The images that play inside my mind
B **G#m**
The dreams that I ve been dreaming all my life
E **B**
The colors that live outside of the lines
F# **G#m**
But dreams aren t all I hide beneath this skin
B **E**
The cord is cut, the fears and doubts begin
F# **G#m**
My hope is anchored on the other side
E **B**
With the colors that live outside of the lines

F# **G#m**
And the oceans roar
E **B**
And the wheel s in spin
F# **G#m**
And the old *Chorus* soars
E **B**
Bring me back, bring me back to the beginning again

Verse 2:

F# **G#m**
With the corrugated LA harbor stacks
B **E**
With the weight of these machines across my back
F# **G#m**

I know a mountain road where time unwinds
E B
But I'm busy living in a single-file line
F# G#m
And it all just sounds like poison on my ears
B E
The background noise makes your voice so hard to hear
F# G#m
So I grit my teeth and straighten up my spine
E B
I'm stuck in traffic on a dotted yellow line

F# G#m
And my heart is yours
E B
And what a broken place it is in
F# G#m
But you're what I'm running for
E B
And I want to feel the wind at my back again
