

Once And Always You  
Sylvia Tosun

G A D  
In a foreign country, you and I  
G A Bm  
Sit beneath a foreign sky  
G A Bm  
Walk the unfamiliar streets  
Em A D  
Watch as yesterday repeats

G A D  
Moving through the ruins of the day  
G A Bm  
We begin to lose our way  
G A Bm  
Everything we might have been  
Em A D  
Waiting to begin again

Bm D  
We are entering the beauty of an unfamiliar past  
Bm Asus4 A  
Hoping for an ending that will last

D A Bm F#m  
After all the doubts and after all the searching  
G A Bm  
After all that we've been through  
D A Bm F#m  
After all the love and after all the sorrow  
G A Dsus4 D  
There was once and always you

G A D  
Standing on the old cathedral steps  
G A Bm  
Kissing where the saints have wept  
G A Bm  
Shadows from another time  
Em A Bm  
Somewhere you were always mine

Bm D  
In the quiet and the mystery of the all too human heart  
Bm Asus4 A  
Lives that come together and apart

D A Bm F#m

After all the doubts and after all the searching

**Bm** **D**  
In a place so unfamiliar we can finally recall  
**Bm** **Asus4 A**  
Only one thing matters after all

D                    A                    Bm                    F#m  
 After all the doubts and after all the searching  
 G                    A                    Bm  
 After all that we've been through  
 D                    A                    Bm                    F#m  
 After all the love and after all the sorrow  
 G                    A  
 There was once and always  
 Bm                    F#m  
 Once and always  
 G                    A                    Dsus4                    D  
 Once and always you
