

Monolith

T. Rex

marc bolan used the same chord progression for a lot of songs. that being **C, Am, F, G.**

so the chord progression for the verse is:

C, Am, F, G.

On the oh no chorus deal. the progression is:

C, F, C, G. a few times toward the end of the song i think it probably goes
(**C, F,**
C, Am) during the chorus.
