

## Darkness

Tab Benoit

This is such a cool song and Tab is an amazing guitarist and songwriter, but if you are like me and can only play one scale --slowly, at that-- chords are your preference. This is super easy and i recommend playing the Fm as a barre- it sounds more complete and is necessary if you did want to try out picking the notes and scales like Tab does.

[Verse]

**Fm**

I m walkin slow

With a weary mind

**C7**

She s draggin me low

**Fm**

I m fallin behind

[Verse]

**Fm**

You got me where you want me

Still I keep on tryin

**C7**

Tryin to see through the darkness

**Fm**

Between you and I

[Verse]

**Fm**

Sometimes it gets hard to find

Any love of any kind

**C7**

Lord turn on the love light

**Fm**

Before I go blind

[Verse]

**Fm**

And pick me up off the ground

Let s let our hearts shine

**C7**

Shine our way through the darkness

**Fm**

Between you and I

[Verse]

**Fm**

You know I love you

But I did you wrong

**C7**

And we both made our choices

**Fm**

Now it s time to move on

[Verse]

**Fm**

So please, please forgive me

And let s walk side by side

**C7**

And fill in this darkness

**Fm**

Between you and I
