

Like I Never Loved You At All  
Take That

Capo on 3rd

Verse

**G** **D**  
Where, where are the stars?  
**C** **D**  
The one that we used to call ours  
**G** **D**  
Can't imagine it now  
**C** **D** **Em**  
We used to laugh 'til we fell down.  
**D** **C**  
The secrets we had, are now in the past  
**D** **C**  
From something to nothing, tell me.

**G** **D**  
How did we lose our way?  
**C**  
It's hard to remember  
**D**  
All that we shared  
**G** **D**  
Now we both have separate lives  
**C** **D**  
From lovers to strangers, now alone  
**Em**  
There's no one catching my fall  
**C**  
No one to hear my call  
**D** **G**  
It's like I never loved you at all.

Verse

Now you're so far away  
And I see our star is fading  
One too many times  
Guess it just got tired of waiting round.

The nights that we thought, if these walls could talk  
From something to nothing, tell me.

How did we lose our way?  
C  
It s hard to remember  
D  
All that we shared  
G D  
Now we both have separate lives  
C D  
From lovers to strangers, now alone  
Em

C  
No one to hear my call  
D  
It s like I never loved you
