Haven Stay - Takida

INTRO: **Am F C G**

Am F C
The dark evolving me as well
G Am
It lingers on from where I can tell
F G
I am yours and yours to blame now

Am F C
Hell s protecting I want to burn
G Am
You and me will never learn
F G
Take a step away from me now, moving closer

F Am
Won t you leave it alone darling
F G
Wait for me, wait for me tonight, moving closer

Am F C
If I ll fall on the way
G Am
If I should fall from you
F G
Keep it real haven stay

Stand in line for what it s worth
It s not better so much worse
They can t help me, helpless blue eyes

Heartbeats pushing me aside
Closing in for one last try
The last breath forcing me to tell lies, moving closer

Won t you leave it alone darling
Wait for me, wait for me tonight, moving closer

If I ll fall on the way
If I should fall from you
Keep it real haven stay

Will you beg me to face

If I am able and true
Keep it still haven raze

If I ll fall on the way
If I should fall from you
Keep it real haven stay

Will you beg me to face
If I am able and true
Keep it still haven raze
Moving closer
