Haven Stay - Takida

INTRO: **Bbm F# C# G#**

**Bbm F# C#**  
The dark evolving me as well  
**G# Bbm**  
It lingers on from where I can tell  
**F# G#**  
I am yours and yours to blame now

**Bbm F# C#**  
Hell s protecting I want to burn  
**G# Bbm**  
You and me will never learn  
**F# G#**  
Take a step away from me now, moving closer

**F# Bbm**  
Won t you leave it alone darling  
**F# G#**  
Wait for me, wait for me tonight, moving closer

**Bbm F# C#**  
If I ll fall on the way  
**G# Bbm**  
If I should fall from you  
**F# G#**  
Keep it real haven stay

Stand in line for what it s worth  
It s not better so much worse  
They can t help me, helpless blue eyes

Heartbeats pushing me aside  
Closing in for one last try  
The last breath forcing me to tell lies, moving closer

Won t you leave it alone darling  
Wait for me, wait for me tonight, moving closer

If I ll fall on the way  
If I should fall from you  
Keep it real haven stay

Will you beg me to face

If I am able and true  
Keep it still haven raze

If I ll fall on the way  
If I should fall from you  
Keep it real haven stay

Will you beg me to face  
If I am able and true  
Keep it still haven raze  
Moving closer
