INTRO: Bbm F# C# G#

Bbm F# C#

The dark evolving me as well

G# Bbm

It lingers on from where I can tell

?# G#

I am yours and yours to blame now

Bbm F# C#

Hell s protecting I want to burn

G# Bbm

You and me will never learn

F# G#

Take a step away from me now, moving closer

F# Bbm

Won t you leave it alone darling

'# Gi

Wait for me, wait for me tonight, moving closer

Bbm F# C#

If I ll fall on the way

G# Bbm

If I should fall from you

F# G

Keep it real haven stay

Stand in line for what it s worth

It s not better so much worse

They can t help me, helpless blue eyes

Heartbeats pushing me aside

Closing in for one last try

The last breath forcing me to tell lies, moving closer

Won t you leave it alone darling

Wait for me, wait for me tonight, moving closer

If I ll fall on the way

If I should fall from you

Keep it real haven stay

Will you beg me to face

If I am able and true Keep it still haven raze

If I ll fall on the way
If I should fall from you
Keep it real haven stay

Will you beg me to face If I am able and true Keep it still haven raze Moving closer
