Haven Stay - Takida

INTRO: **Bm G D A**

Bm G D
The dark evolving me as well
A Bm
It lingers on from where I can tell
G A
I am yours and yours to blame now

Bm G D
Hell s protecting I want to burn
A Bm
You and me will never learn
G A
Take a step away from me now, moving closer

G Bm
Won t you leave it alone darling
G A
Wait for me, wait for me tonight, moving closer

Bm G D
If I ll fall on the way
A Bm
If I should fall from you
G A
Keep it real haven stay

Stand in line for what it s worth
It s not better so much worse
They can t help me, helpless blue eyes

Heartbeats pushing me aside
Closing in for one last try
The last breath forcing me to tell lies, moving closer

Won t you leave it alone darling
Wait for me, wait for me tonight, moving closer

If I ll fall on the way
If I should fall from you
Keep it real haven stay

Will you beg me to face

If I am able and true
Keep it still haven raze

If I ll fall on the way
If I should fall from you
Keep it real haven stay

Will you beg me to face
If I am able and true
Keep it still haven raze
Moving closer
