Lyrics

Patient 3 sits all alone, staring blankly at the phone  
Hoping for someone to call  
He sits and cries and wonders why  
he s the chosen one to die  
Is the pain worth it all?  
Patient 3 s like you and me, same age with lots ahead to see  
That don t apply to him  
Cos Patient 3 is very ill  
with something thats gonna kill  
Theres nothing they can do

Chorus

**F#** **Bbm**  
So Daddy Daddy please dont cry  
**B**  
Your only sons about to die  
**G#m**  
He don t have no choice  
**F#** **Bbm**  
And mother dear can t you see?  
**B**  
I m as happy as can be  
**G#m**  
It is just my time  
**C#**  
I ll die in my prime

BACK TO VERSE CHORDS

He remembers happy times as he sings through nursery rhymes  
Cos they remind him of home

He d like the chance to live again  
Cos he s been ill since he was 10  
But you only live once  
He wonders why the bad survive and have the right to be alive  
What has he done?  
He checks the clock its 5 to ten  
Will he see Christmas lights again  
Will he see tomorrow??

CHORUS (same as above)

Last verse

(Use same chords as chorus - Darney picks through-if anyone knows  
how to play his part can they please submit it - thanks)

A few nights later as stars shone  
Patient 3 was sadly gone  
Free at last  
Doctors tired said we tried  
Patient 3 was bound to die  
Nothing they could do  
Family stand round with their grief  
Mixed with feeling of relief  
Cos he aint suffering  
And as this life ends right next door  
All alone sits Patient 4  
crying quietly
