And She Was
Talking Heads

```
Eb              G#              Eb
And she was lying in the grass
Eb              G#                    Eb
And she could hear the highway breathing
Eb              G#            Eb
And she could see a nearby factory
Eb              G#             Eb
She s making sure she is not dreaming
A         E             B         E
See the lights of the neighbor s house
A          B           E
Now she s starting to rise
A      E      B         E
Take a minute to concentrate
    A         F#        B
And she opens up her eyes
Eb                 G#            C#            G#
The world was moving, she was right there with it
          Eb      G#    C#    G#
And she was
Eb                 G#              C#              G#
The world was moving she was floating above it
          Eb      G#    C#    G#
And she was
Eb              G#                        Eb
And she was drifting thorugh the backyard
Eb              G#            Eb
And she was taking off her dress
Eb              G#              Eb
And she was moving very slowly
Eb      G#              Eb
Rising up above the earth
A      E      B      E
Moving into the universe
A         B             E
Drifting this way and that
A      E         B         E
Now touching the ground at all
A   F#         B
Up above the yard
Eb                G#              C#              G#
The world was moving, she was right there with it
          Eb      G#    C#    G#
And she was
Eb                 G#            C#              G#
The world was moving she was floating above it
```

```
        Eb      G#    C#    G#
And she was
          Bbm
She was glad about it ... no doubt about it
F#
She isn t sure about where she s gone
Bbm
No time to think about what to tell them
F#
No time to think about what she s done
        Eb   G#    Eb
And she was
Eb             G#         Eb
And she was looking at herself
Eb                 G#            Eb
And things were looking like a movie
Eb           G#       Eb
She had a pleasant elevation
Eb           G#           Eb
She s moving out in all directions
A   E    B    E
Oh, oh, oh, ...
A   B   E
Oh, oh, oh, ...
A   E    B    E
Oh, oh, oh, ...
A   F#   B
Oh, oh, oh, ...
Eb            G#          C#         G#
The world was moving, she was right there with it
        Eb    G#   C#   G#
And she was
Eb            G#          C#          G#
The world was moving she was floating above it
        Eb    G#   C#   G#
And she was
Eb           G#         C#       G#
Joining the world of missing persons
        Eb    G#   C#   G#
And she was
Eb         G#      C#       G#
Missing enough to feel alright
          Eb
And she was
```
