And She Was
Talking Heads

```
F#              B                F#
And she was lying in the grass
F#              B                     F#
And she could hear the highway breathing
F#              B            F#
And she could see a nearby factory
F#            B                 F#
She s making sure she is not dreaming
C        G           D      G
See the lights of the neighbor s house
C          D         G
Now she s starting to rise
C      G      D      G
Take a minute to concentrate
    C        A      D
And she opens up her eyes
F#              B               E            B
The world was moving, she was right there with it
         F#      B    E    B
And she was
F#              B               E            B
The world was moving she was floating above it
         F#      B    E    B
And she was
F#              B                    F#
And she was drifting thorugh the backyard
F#           B              F#
And she was taking off her dress
F#             B           F#
And she was moving very slowly
F#      B           F#
Rising up above the earth
C    G    D    G
Moving into the universe
C       D        G
Drifting this way and that
C    G      D     G
Now touching the ground at all
C    A       D
Up above the yard
F#              B           E            B
The world was moving, she was right there with it
         F#      B    E    B
And she was
F#              B           E            B
The world was moving she was floating above it
```

```
       F#       B    E    B
And she was
          C#m
She was glad about it ... no doubt about it
A
She isn t sure about where she s gone
C#m
No time to think about what to tell them
A
No time to think about what she s done
        F#    B    F#
And she was
F#             B           F#
And she was looking at herself
F#               B             F#
And things were looking like a movie
F#           B        F#
She had a pleasant elevation
F#             B           F#
She s moving out in all directions
C  G    D   G
Oh, oh, oh, ...
C   D   G
Oh, oh, oh, ...
C  G   D   G
Oh, oh, oh, ...
C   A    D
Oh, oh, oh, ...
F#              B            E            B
The world was moving, she was right there with it
         F#      B    E    B
And she was
F#              B            E            B
The world was moving she was floating above it
         F#      B    E    B
And she was
F#             B         E       B
Joining the world of missing persons
         F#      B    E    B
And she was
F#          B     E       B
Missing enough to feel alright
        F#
And she was
```
