

This Must Be The Place Naive Melody
Talking Heads

hey this is my first tab. i really wanted to do this song because im covering it
and no
else seems to have tabbed it

```
e-----|
B-----|
G-----0-----0---2-----|
D---0---0-----2---2-----|
A-----|
E-----|
```

moderately fast

this is the main riff and goes through out the whole song basically, im
listening to the
fire s version,

and the little piano part is pretty simple (very beggining of the song with
drums)
i play it on the paino so i havent translated it to guitar but the notes are

GABA

so the beat is lik this

GG G AA A BB B AA A GG G AA A BB B AA A

thanks for looking
this song is brilliant
