

Everything To Me
Tamarama

So this is my first time posting chords here. This is an easy, but fun song to play :)

Verse

Am G F Am G

Chorus

C G F Am G

Verse

dreaming of leaving away
yeah flying away, on an eagle baby
you say you want to live my way
god these games that you play
they're driving me crazy

Chorus

and you know that everything
is everything to me
and you know that everything
is gonna have to change
and you know well it's sunday morning and everything is alright
it's alright

Verse

yeah you roll it up, you smoke it down
everybody hits the ground
music and a dancing cause you know
that they're romancing baby
yeah baby

and all the people drinking really feel
like they are sinking to a different
kind of fool, with a different
point of view yeah lady
yeah lady

Chorus

and you know that everything
is everything to me
and you know that everything

is gonna have to change
and you know well itâ€™s sunday morning
and everything is alright
itâ€™s alright

oooooooooh well itâ€™s sunday morning again and life keeps bringing us here
yeah life keeps bringing us here

oooooooooh well itâ€™s sunday morning again and life keeps bringing us here
yeah life keeps bringing us here

That s it! Enjoy!
