

**All Through Throwing Good Love After Bad**  
**Tammy Wynette**

All Through Throwing Good Love After Bad

**A**                    **E**                    **F#m**                    **D**  
A time there was I was feeling so hopeless,  
**A**                    **E**                    **A**  
It s a wonder I didn t cave in  
                                 **E**                    **F#m**                    **D**  
I kept throwing love at all the wrong people  
**A**                    **E**                    **A**  
Never to see it again

Chorus:

**C#m**                    **D**                    **A**  
Oh, Lord, won t you look what I ve found?  
**F#m**                    **D**                    **A**  
Staring me right in the face  
                 **F#m**                    **E**                    **D**  
I m through being lonely, I m through being sad  
                 **F#m D**                    **A**                    **E**                    **A**  
I m all through throwing good love after bad

Now I think of all the time I have wasted  
Wearing my heart on my sleeve  
Trusting my heart to the kindness of strangers,  
Oh, I was so naive

Chorus (2X)
