Another Lonely Song

Intro: **C Csus4 C Csus4**

C G Am C
Time won't ease my memory, it's killing me now

F Em
And Lord how I need him here

Dm7 G G7
Just to feel him near and hear him breathing

Still the night goes on and on another lonely song I'm singing
Lord don't think bad of me
Don't get mad at me you know I'm weak

Em A7 Em A7
And it couldn't cause a whole lot of harm to be in somebody's arms
Dm7 Fm C G7
Cause she's in his, I know she is, I know she is but God I love him

And though I shouldn't give a damn that's the way I am now
And Lord guess I'll stay this way
I can't play this way just because I'm lonely

Still the night goes on and on another lonely song I'm singing
Lord don't look down on me
Don't frown on me let's just keep talking
[strings]
Another lonely song I'm singing
