

Keep The Change

Tammy Wynette

Keep The Change

B

It was so good when he loved you,

F#7

I could tell by the sunshine on your face

I know he bought you pretty things

B

I know he made your world a happy place

And I remember when she loved you

And in those days you had someone to care

And through your long and lonely nights

When you needed someone, she was there

C

Ah, but lately you re not smiling

G7

And I don t see that sunshine like before

I know you ve tried to make it work

C

But I don t think he loves you anymore

And I know she must have hurt you

Cause I ve seen the tears, you try so hard to hide

But if we had each other

It might just stop this hurt we have inside

C7

F G

C

Change to me and keep the change

F

C

And I won t do you like he did

D

G

C7

And I won t hurt you like she did

Change to me and keep the change

And we ll never need another

Once we have each other

Change to me and keep the change
