

**Lonely Days**

**Tammy Wynette**

Lonely Days

**D**

Lonely days and nights more lonely

**A A7**

Since my love went away

**D Am G**

Longing for my one and only

**A7 D**

Through the night and through the day

**G D A7 D**

Daytime memories returning, make each hour eternity

**G D A7**

But with nigh time silent yearning, time stands still or will there always be

Lonely days and nights more lonely

Till my love comes back to me

Till my love comes back to me
