Love Doesn't Always Come (On the Nights You Need It)

**G** **C** **G**  
I just saw the sun go down behind the purple sky  
**D** **G**  
Watched the daylight slowly fade and die  
**C** **G**  
Saw two lovers close their door and turn out their bedroom light  
**D** **G**  
Wishing you were here with me tonight  
**F** **C**  
Picked up a book and tried my best to read it  
**G** **C** **D** **G**  
But love doesn't always come on the nights you need it

Lying here I feel so lost in this big king size bed  
Reached down and grabbed my fingers cross the satin spread  
Thought of how it felt to lay my head upon your chest  
Lord I never felt such loneliness  
In nights like this I feel I am being cheated  
But love doesn't always come on the nights you need it

**G** **C** **G** **Bm** **C** **G**  
On the nights I need you so, what do I do, where do I go?  
**F** **C**  
I (?) to make me feel completed

But love doesn't always come on the nights you need it  
No, love doesn't always come on the nights you need it
