One Final Stand

**G** The love the I used to see whenever you looked at me just ain t showing **F C**  
**G** I can tell something s wrong and I know before long you ll be going **F C**  
**Gm** And baby your tender touch the one that I loved so much is not there anymore **C F Bb**  
**C** Oh, I wish we could find what we had one time and love like before **G F C**  
  
If it s a matter of pride then let s push it aside and get together  
And if I d give to you love light you want me to will it matter  
There s so much love in my heart like this been from the start and it s always  
there for you  
I ll make one final try if it don t work for you and I then I ll say goodbye  
  
**C F**  
Yes, I ll make one final stand  
**C C7**  
To hold more than I can to the one I ve loved so long  
**F**  
I ll make one final stand  
**C G**  
With my heart and my hand cause I love you right or wrong  
  
**C Gm C F Bb**  
But if you chose to go then I ll want you to know I ve done everything I can  
**C G F C**  
Though my life may be hell still I wish you well I ve made one final stand
