

Still Around
Tammy Wynette

Still Around

Bb Cm F Bb Cm F Bb
To make you stay I ll never try and when you go I will not cry
Cm F Bb Cm F Bb
But for a time I might be found somewhere near, still around

But may you find a love that s true someone to love and cherish you
And if you love your whole life through and may you love as I love you

C Dm G C
But if you ll ever feel alone with no true love to call your own
And if you ll need a place to hide these arms of mine are open wide

And if a troubled love brings you pain my love is all like summer rain
Always remember I ll be found still around

To make you stay I ll never try and when you go I will not cry
