## Where Some Good Love Has Been Tammy Wynette

Where Some Good Love Has Been

F C 1

There s your ring, my ring on the table

Dm Bb F C

Now they won t ever hurt our hands again

F F7 Bb

Cause when the lights go out tonight, we won t be together

F C F

So let s take a good look where some good love has been

Your love and my love is almost over
And it won t be long till memories begin
Only in our minds we ll find the times we found each other
So let s take a good look where some good love has been

Bb F C F

It hurts so much, the time we touched and knew we d lost the feeling G7 C

And when those things can t be explained there s no use concealing

With your ring, and my ring on the table

It s so silent now you can almost hear it end

Cause when the lights go out tonight, we won t be together

So let s take a good look where some good love has been
