

**You Never Cross My Mind**  
**Tammy Wynette**

You Never Cross My Mind

**G#**                      **C#**                      **D#**  
I lay there every night where you loved me  
**Bbm**                      **D#**      **G#**  
And I m used to nights that go by slow  
**C#**                      **D#**  
I wake up every day where you left me  
**Bbm**                      **D#**                      **G#**  
Wondering which way the days gonna go

Chorus:

**C#**                      **D#**  
But you never cross my mind  
**Bbm**      **D#**                      **G#**  
Though I cry from time to time  
**C#**                      **D#**  
No, you never cross my mind  
**Bbm**                      **D#**                      **G#**      **C#** **D#**      **G#**      **C#**      **D#**  
You stay there all the time

From time to time my eyes will find your picture  
One I forgot to put away  
Another memory tries to make me miss you  
And I find one more reminder every day

Chorus 2X
