Taproot

No one seems to wanna touch this tab, so I went for it. This is the version from the Music As A Weapon tour, and I watched the DVD far too many times to get this. It s a bit long, but I tried to shorten it as much as possible and still make sense, they tend to like to alter their riffs. I know it s 2 guitars, but I tabbed it for one. I think it s pretty accurate, but not 100%. If you got a prob with it, then tab it yourself.
