```

E5       D5           E5       D5           B5 C5       D5 G5 D5
Screams falling out of the sky, Blackness encloses me
E5       D5           E5       D5           B5 C5       D5
Strange visions flickering to die, Twisted shape of eternity
E5       D5           E5       D5           B5 C5 D5
Freezing wind bites my flesh, Rips it off over the bone
E5       D5           E5       D5           B5 C5       D5 E5
Stranded in the night forever, Pain makes me scream and groan

```

[Pre-Chorus]

```

C           D           C           B
I can no longer break the shields of my loneliness

I m only waiting in the everlasting fortress of midwinter nights

[Verse 2]

```

E5 D5           E5       D5           B5 C5       D5 G5 D5
Soul lost in anger and frustration, Darkness enters me
E5 D5           E5       D5           B5 C5       D5
Ruins, decay and desolation are left from my world to be seen
E5 D5           E5       D5           B5 C5       D5
Out in the snow with my ghosts, Howling in the woods with beasts
E5 D5           E5       D5           B5 C5       D5 E5
Blackhearted grief swells in me, Gone too far for anyone to reach

```
