

**Big Smoke**  
**Tash Sultana**

[Intro]

**Am Bm Em** 8x

[Verse 1]

**Am** **Bm** **Em**  
Well I was going down on my lines  
**Am** **Bm** **Em**  
And I heard that the waiting feel was fine  
**Am** **Bm**  
But I was reading in between the lies  
**Em**  
Like I had my hands right over my eyes  
**Am** **Bm**  
See, this is what I despise  
**Em**  
Of you and I

[Verse 2]

**Am**  
I took a trip to the dark side  
**Bm**  
I placed it on my tongue  
**Em**  
Re-wired my whole brain  
  
Started hell it begun  
**Am**  
The world drained from colour  
**Bm**  
Black and white was the sun  
**Em**  
I forgot my own name  
  
I forgot who I was

[Chorus]

**Am** **Bm**  
But when the big smoke comes  
**Em**  
I know the way  
**Am**  
Cause I wanna  
**Bm**  
Guide your love

**Em**

Guide your love back home

**Am**

**Bm**

Cause when the big smoke comes

**Em**

I know the way

**Am**

Cause I wanna guide your love

**Em**

Back home

[Instrumental]

Em - till the end
