

The Waiting Room
Taylor Janzen

during most of the song the F chord is played in three down strums of all strings.
you can easily hear the strumming pattern in the song which is on all streaming services or here:

[Intro]
C A F C

[Verse One]
C **Am** **F** **C**
You see someone else when you look at me
C **Am** **F** **C**
You see what I ve always tried to train myself to be
C **Am** **F** **C**
You see dinner tables and picture frames and everything in between
C **Am** **F** **C**
You see a medicated mind gripping tight to belief

[Chorus]
 G **F** **C**
And I hope I never have to see this waiting room again
 G
With patients coughing beside me,
 F **C**
while i stare up at fluorescents
G **F** **C**
Praying that no one I know will walk in
 C **F**
And I ll have to explain why I m here
 C **F** **G**
But I don t even know why I m here

[Instrumental]
C Am F C

[Verse Two]
C **Am** **F** **C**
My mouth sewn shut, for you I tear open the seams
C **Am** **F** **C**
Every time they ask what s wrong with me
C **Am** **F** **C**
If I knew, I d tell you, but trust me I don t
C **Am** **F** **C**
And you can diagnose me, but that won t make me cope

[Chorus]

G **F** **C**
And I hope I never have to see this office again
G **F** **C**
Spitting out my demons to somebody I just met
G **F** **C**
She s taking notes just to remember my name
G **F** **C**
Cause the only one who listens is the person I pay
G **F** **C**
And I hope I never have to see this waiting room again... x3

[Outro]

C **Am** **F** **C**
Lest I forget what it s done to my head
C **Am** **F** **C**
Let the medication fix me instead
