```

```
                  Em
You should ve said no
                      C
You should ve gone home
                      Em                              C
You shouldâ€™ve said no, you shouldâ€™ve gone home
                          D                           G
You shouldâ€™ve thought twice before you let it all go
                          Em                          C
You shouldâ€™ve know that word, bout what you did with her
                  D
Would get back to me (Bad Blood!)
                      Em                              C
And I shouldâ€™ve been there, in the back of your mind
              D         G
I shouldnâ€™t be asking myself why
              Em            C              D
You shouldnâ€™t be begging for forgiveness at my feet
                  C                   D
You shouldâ€™ve said no, baby and you might still have me
