

Cassandra  
Taylor Swift

CAPO 3er TRASTE!!!!

**Dm C G**  
I was in my new house placing daydreams

**Dm C G**  
Patching up the crack along the wall

**Dm C G**  
I pass it and lose track of what I'm saying

**Dm C G**  
'Cause that's where I was when I got the call

**Dm C G**  
When the first stone's thrown, they're screaming

**Dm C G**  
In the streets, there's a raging riot

**Dm C G**  
When it's "Burn the bitch," they're shrieking

**Dm C G**  
When the truth comes out, it's quiet

**Em G D**  
So, they killed Cassandra first 'cause she feared the worst

**Em G D**  
And tried to tell the town

**Em G D**  
So, they filled my cell with snakes, I regret to say

**Em G D**  
Do you believe me now?

**Dm C G**  
I was in my tower weaving nightmares

**Dm C G**  
Twisting all my smiles into snarls

**Dm C G**  
They say, "What doesn't kill you makes you aware"

**Dm C G**  
What happens if it becomes who you are?

**Em G D**  
So, they killed Cassandra first 'cause she feared the worst

**Em G D**  
And tried to tell the town

**Em G D**  
So, they set my life in flames, I regret to say

**Em G D**  
Do you believe me now?

**C Em D**  
They knew, they knew, they knew the whole time

That I was onto something

**C Em D**  
The family, the pure greed, the Christian chorus line

They all said nothing

**C Em**  
Blood's thick but nothing like a payroll

**D**  
Bet they never spared a prayer for my soul

**C Em D**  
You can mark my words that I said it first

**Dm C G**  
In a morning warning, no one heard

**Dm C G**  
I patched up the crack along the wall

**Dm C G**  
I pass it and lose track of what I'm saying

**Dm C G**  
'Cause that's where I was when I lost it all

Ah, ah-ah-ah, ah

I was onto something

**C Em D**  
Ah-ah-ah, ah

They all said nothing
