

Florida!!! ft Florence, the Machine  
Taylor Swift

**F**                  **Am**                  **G**  
You can beat the heat if you beat the charges too  
                  **F**                  **Am**                  **G**  
They said I was a cheat, I guess it must be true  
                  **F**                                  **Am**                  **G**  
And my friends, all smell like weed or little babies  
                  **F**                                  **Am**                  **G**  
And the city reeks of driving myself crazy

**F**                                  **Am**  
Little did you know your home's really only  
                  **G**  
A town you're just a guest in  
                  **F**                                  **Am**  
So you work your life away just to pay  
                  **G**  
For a time-share down in Destin

**G**  
Florida  
                  **F**  
Is one hell of a drug  
                  **G**

Florida  
                  **F**  
Can I use you up?

**F**                                  **Am**  
The hurricane with my name when it came  
                  **G**  
I got drunk and I dared it to wash me away  
                  **F**                                  **Am**  
Barricaded in the bathroom with a bottle of wine  
                  **G**  
Well, m? and my ghosts, we had a hell of a time  
                  **F**                                  **Am**  
Y?s, I'm haunted, but I'm feeling just fine  
                  **G**  
All my girls got their lace and their crimes  
                  **F**                                  **Am**  
And your cheating husband disappeared  
                  **G**  
Well, no one asks any questions here

**Dm C**

So I did my best to lay to rest

**G**

All of the bodies that have ever been on my body

**Dm C G**

And in my mind, they sink into the swamp

**G**

Is that a bad thing to say in a song?

**F Am**

Little did you know your home's really only

**G**

The town you'll get arrested

**F Am**

So you pack your life away just to wait out

**G**

The shitstorm back in Texas

**G**

Florida

Tell me I'm despicable, say it's unforgivable

**F**

At least the dolls are beautiful, fuck me up, Florida

I need to forget, so take me to Florida

**G**

I've got some regrets, I'll bury them in Florida
