I Did Something Bad
Taylor Swift

[Intro]   **Em**

    Em
I never trust a narcissist
                   G
But they love me
      C
So I play em like a violin
                 Am   **D**
And I make it look oh-so-easy
           Em
 Cause for every lie I tell them
                  G
They tell me three
C
This is how the world works
           Am   **D**   **C**
Now all he thinks about is me

                         Em
I can feel the flames on my skin
         D   **C**
Crimson red paint on my lips
                           Am
If a man talks shit, then I owe him nothing
                  D   **Em**
I don t regret it one bit, cause he had it coming

                Em
They say I did something bad
                G
Then why s it feel so good?
                C
They say I did something bad
            Am   **D**
But why s it feel so good?
          Em
Most fun I ever had
        G   **C**
And I d do it over and over and over again if I could
             Am   **D**
It just felt so good, good

(**Em** **G** **C** **Am** **D**)

    Em
I never trust a playboy

```
                   G
But they love me
       C
So I fly  em all around the world
                   Am         D
And I let them think they saved me
        Em
They never see it comin
               G
What I do next
C
This is how the world works
                   Am         D        C
You gotta leave before you get left

                               Em
I can feel the flames on my skin
                   D                   C
He says  Don t throw away a good thing
                                        Am
But if he drops my name, then I owe him nothin
                   D                        Em
And if he spends my change, then he had it comin

                       Em
They say I did something bad
                   G
Then why s it feel so good?
                       C
They say I did something bad
                   Am        D
But why s it feel so  good?
                   Em
Most fun I ever had
               G                            C
And I d do it over and over and over again if I could
                   Am        D
It just felt so good, good

( Em  G  C  Am  D )

Em                                            G          D
  They re burning all the witches, even if you aren t one
C                                            Am
  They got their pitchforks and proof
                       D
  Their receipts and reasons
Em                                            G          D
  They re burning all the witches, even if you aren t one
       C
  So light me up (light me up), light me up (light me up)
  Am                          D
  Light me up, go ahead and light me up (light me up)
```

```
Em
Light me up (light me up), light me up (light me up)
Light me up (light me up), light me up

                        Em
They say I did something bad (ohh)
                              G
Then why s it feel so good? (so good)
                              C
They say I did something bad
                    Am        D
But why s it feel so  good?
                  Em
Most fun I ever had (most fun I ever had)
              G                           C
And I d do it over and over and over again if I could
              Am        D
It just felt so good, (good) good

(  Em   G   C   Am   D  )

Em                             G
  So bad, why s it feel so good?
                              C
  Why s it feel, why s it feel so good? (bad)
            Am       D
  It just felt so good, good
```
