(Repeats throughout the song)

G Bm C D

She s standing in her bedroom
He ll be pullin up soon
She thinks about it as she sees headlights
Looking out the window she s got her diary to show
That she s been waiting for this all her life
First date,can t wait
Lookin in the mirror
Heart all wrapped up
Wait until he sees her
He s lookin right at her
She thinks about it

Sixteen blue jeans Abercrombie t-shirt
Shoes purse hair tied back and you should see her
She s got her magic floating through the air

Peace, Love,One thing leads into another
Dream big, Aim small
Man you gotta love her
She s got her hopes up
Got em up to there
Wonderin what to wear

The years went by
The mirror saw her cry
She got up again
She got up again
The wind blew by the small town lights
She got up again

Move out
Find out where the world can take her
Bright lights late nights livin for the greater
Move to Paris livin on a prayer

Peace, Love,One thing leads into another
Dream big, Aim small
Man you gotta love her
She s got her hopes up
Got em up to there
She s got her hopes up
Got em up to there
Wonderin what to wear
Ooo Ooo
Wonderin what to wear
