

You Dont Have To Call Taylor Swift

You don t Have to Call by Taylor Swift

My first Tab! Taylor Swift is my favourite, not many people know this song. I tried to do this by ear, so sorry if the chords arenâ€™t exact, but I think it sounds pretty similar. There are some fast chord changes in places but if you use the strum pattern I do, it works well! (: The second â€œdownâ€• is where you change the chord

Standard Tuning EADGBE

Strum pattern: D DU DU

The chords are basic, except the **D/F#**:

EADGBE

2,0,0,0,3,3

Enjoy and let me know if you have any questions/concerns (:
