

**Moonshine**

**Tea Leaf Green**

Based on namirshaba s ear.

**A**                    **D**  
Moonshine, moonshine  
**G**                            **A**  
The sour mash is doing fine  
**B**                            **E**  
I feel like Iâ€™m doing time  
**D**    **A**                    **G**                    **D**  
In this country shack of mine, oh mine, oh mine

Sunshine, sunshine  
Found a cloud to hide behind  
Babyâ€™s gone and I donâ€™t mind  
Pour myself a glass of homemade wine

**E**    **B**  
Thereâ€™s a bottle on the floor  
**A**    **D**  
I donâ€™t think it was there before  
**E**    **B**  
Baby, she donâ€™t clean no more  
**A**    **D**  
I think sheâ€™s tired of being poor

Shiny cars and fancy clothes  
Where they come from I donâ€™t know  
My baby thinks she needs them though  
So she takes my money and off she goes

Sitting by a rusty still  
Waiting for the thing to fill  
And I gave my girl a dollar bill  
Buy some flour from the mill, oh well

She come home  
Moonshine, moonshine  
What a way to spend your time  
My babyâ€™s crossed the county line  
I need something to ease my weary mind

Sitting by my rusty still  
Waiting for the thing to fill  
And I gave my girl a dollar bill  
Buy some flour from the mill, oh well

She come home  
Moonshine, moonshine  
What a way to spend your time  
Babyâ€™s crossed the county line  
I need something to ease my weary mind  
To ease my weary mind, to ease my weary mind
