**Team Me**

**F**            **Bb**            **F**            **Bb**  
Kennedy Street, late night breeze  
**F**                    **Bb**            **Gm**            **Dm**            **Bb**  
songs that we sung and how they all felt right,  
**Dm**            **Bb**  
all felt right there and then but not now  
**F**            **Bb**            **F**            **Bb**

**F**            **Bb**                    **Gm**            **Dm**            **Bb**  
Kennedy Street and all those plans I made  
**Dm**            **Bb**

Kennedy Street, take me back

**F**                                    **Gm**

    **F**                                    **Gm**  
when all you do is cry your heart out at night  
                  **F**                                    **Gm**  
It s trembling underneath my feet tonight  
    **F**                                    **Gm**  
just like it did in ninety-eight
