VERSE 1

**E**                    **G#**                    **F#**  
You seem so afraid, afraid youâ€™ll regret

**C#**                    **Asus**                    **B**  
Regret getting closer and connected to me

**E**                    **G#**                    **F#**  
And I feel like that too but Iâ€™m scared

**C#**                    **Asus**                    **B**  
Scared youâ€™ll leave while you still feel you can

**C#**                    **F#**                    **B**  
So Iâ€™ll just wait and see

**C#**                    **B**                    **Asus**                    **B**  
So Iâ€™ll just wait and see and see

CHORUS

**E**                    **G#**                    **F#**                    **Asus**  
Let our eyes say words weâ€™ll leave unspoken

**E**                    **F#**                    **Asus**  
When we re trying to be careful

**E**                    **G#**                    **F#**  
And words can be so confusing

**E**                    **C#**                    **F#**  
When we re trying to be careful

**Asus**  
But not too careful...
