| G | Am | D | G |

verse 1

          G                  Am  
we re going over the country

                  D  
and into the highlands

          G  
to look for a home

                          Am  
we re leaving nothing behind us

                  D  
and no-one will find us

                  G  
when we re on our own

chorus

          C                          B7  
I feel the planets surround me  
                  Em          | A | G      G/D   D  
they gather round me

verse 2

          G                  Am  
we re moving out of the city

                  D  
we ll pack up the case

          G  
and make for the road

                          Am  
where flowing rivers will bind us

                  D  
no shadows will find us

                  G  
now we re on our own

chorus

          C                          B7  
I feel the planets surround me  
                  Em          | A | G      G/D   D  
they gather round me
