COME ON - Tegan and Sara

T&S are great, and it was irritating me that nobody figured this out just right. Sorry if my lyrics are off, I was too lazy to go look them up. I m pretty sure that this was the remake of the song, on one of the more recent albums, instead of the original that didn t include about half of the break that my version has. On the bottom, Tegan(I believe) says the words more than once, but I only felt the need to put them there one time.

tuning: normal, capo 5th fret
