

Let time stand still

Verse 2(same chords)

Once your name was but a whisper  
A simple wish upon my tongue  
Staring at your shadow  
Was like staring at the sun  
In this dark, dark hour  
You still illuminate a room  
Oh God give us the power  
Gotta keep ourselves in tune

Let s go dancing  
Waltz around the rumour mill  
In your faded dress with the daffodils  
Let s go dancing  
Let time stand still
