

You Take It Slowly
Telekinesis

Tabbed by Matthew Lundin

D	F#m	A	E
you	talk	a	lot
but	nothing	seems	to
make	sense		
there	s	not	much
there	just	fragments	in
the	spider	s	web
defective	language	let	the
sound	move	through	your
head			
collect	the	dead	and
maybe	you	can	make
a	new	friend	

(riff)

now we re ashamed look what s become of us
the bells are ringing but there is nothing in our eardrums
affect(?) the past for everyone to gawk and stare
just try to slow it down just try to make it more clear

you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier

(distortion)

you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier
you take it slowly you take it easier
