Α

We fell in love this summer

By the spring time we were done

Is it any wonder that I didn t run?

No amount of equations

could tell you what went wrong

D

I could see straight through you

Α

You turn clear in the sun

Let s start all over, let s go back to square one

I never loved you, I ve never loved anyone

I could sit and wonder about where I went wrong

Or I can go out Friday and try to have fun

You say nothing and I know its true

You say nothing and it comes right back to you

В

I hope he treats you better, I hope that he'll take you out

I hope he ll support you when thereâ \in ^Ms no one around _-

I guess $\hat{Ia} \in \mathbb{M}$ m gone forever I guess I moved to a new town

So I wonâ \in mt forget you, Iâ \in mm writing it all down

в

You say nothing and I know itâ \in TMs true

You say nothing and it comes right back to you

Was it you or was it me?

Was it you or was it me?

Was it you or was it me?

Was it you or was it me?
